THE POSITION

This position is an at-will limited term assignment for a minimum of two years. The position may be extended beyond two years depending upon available funding. It may be filled at any of the three levels of Regional Planner. This is a flexibly staffed classification. Individuals hired at the Assistant or Associate level may advance to the next level without competition, once the competencies have been met and upon recommendation of their supervisor.

The employee will work under the direction of the Community Development Division Manager and function as a Regional Planner for studies funded by the California Blueprint Grant. The position's duties will focus on the regional land use/housing and transportation connection as it is applied to regional planning initiatives and local government implementation.

This position provides an extraordinary opportunity to become involved in the State's most important initiative to improve housing and transportation choices and conduct scenario planning for more efficient land use patterns throughout California. SCAG was awarded the largest Blueprint grant for any MPO in California. SCAG will use these resources in conjunction with its Compass Growth Visioning program to assist individual communities to find unique and effective solutions to local planning problems focusing on the land use/housing/ transportation connection.

Ideal Candidate Qualities:

- Demonstrable expertise in public outreach and consensus building
- Excellent interpersonal skills
- Effective verbal and written communication skills
- Excellent presentation and public speaking skills
- Strategic and creative thinker
- Adaptable and flexible worker
- Knowledge of local and government organization
- Knowledge of transit and public transportation planning principles and their integration with land use and housing planning

- Politically astute, with experience in dealing with elected officials
- Ability to analyze and interpret technical data and develop public policy

The following is a list of typical duties of this position:

- As a part of the team, assess the potential for transit oriented development through both redevelopment investment analysis supporting local infill strategies, place-based housing, and transportation affordability;
- Evaluate land use, housing, transportation performance measures, and incentives to promote development in Compass 2% Strategy growth opportunity areas;
- Perform technical and policy research and analysis for Blueprint and its application for improving mobility while creating housing opportunities;
- Supervise and/or assist with the supervision of technical consultants and provide technical direction and functional supervision to subordinate staff.
- Assist in the administration of consultant contacts and grant filing requirements.

MINIMUM QUALIFICATIONS

Education: Equivalent to a Bachelor's degree from an accredited college or university with major course work in urban planning, policy analysis, political science, engineering, economics or a related field. Transportation/land use/housing planning emphasis is highly desirable. A Master's degree may substitute for one year of required experience.

Experience and Training: **Assistant:** One year of urban or regional planning or policy experience. **Associate:** Two years of professional urban or regional planning experience that includes economic forecasting and trend analysis. **Senior:** Four years of professional urban or regional planning experience.

Knowledge of: Transportation, housing, and land use planning principles; research methods and sources of information related to transit, urban transportation development, and planning; government organizations, functions, and operating methods;

policy development; applicable laws and regulations; principles of economics or transportation planning; methods and techniques of project management.

Ability to: Analyze and compile policy-level and technical information: work independently and in a team environment; convene disparate groups, identify options and achieve consensus; adapt to multiple task and/or project schedules in a dynamic planning environment; plan and coordinate multi-disciplinary projects; interpret regional transportation planning and housing programs to the general public and to member agencies and investigate planning problems.
